

Helen Rowles, CPSA

As an artist my interest is in color, patterns and form while telling a story. My colored pencil work allows delicacy and intricacy of pattern to be achieved as much of my work includes fabric of various designs. Sometimes appearing whimsical, as the viewer looks deeper, she may find a more complex story line. The juxtaposition of this whimsy against more complicated life events is what I find to be inspirational and a challenge that continues every time I enter my studio.
