

# Virginia Carroll, CPSA, CPX

I've been involved with Art from a very early age, working in traditional media, but in 2006, I accidentally discovered Colored Pencil and have worked in no other media since that time. I bring to it my innate skills developed over the years, such as a great love of color, value, drama, a different perspective of ordinary subject matter and the desire to explore new materials and techniques!

## Exhibitions/Awards/Publications
